

1.6MW Supplied to Remote Seafood Processing Facility

(2) CAT C27 T4i Generator Set
 Rated at 800 KW Standby, 60 HZ, 480 V, 1800 RPM
 Location: Gulf of Alaska, USA

SUMMARY

IMP Corporation was requested to source generators that could supply 1.6 MW of power to a remote Alaskan seafood processing facility.

CHALLENGE

IMP did not have a large window of time to provide the required equipment before the incoming high volume due to fishing season.

SOLUTION

IMP Corporation was able to source (2) CAT C27 T4i gensets in time, which also included installation of sound attenuated enclosures.

Specs

Equipment:
 C27 T4i Generator Sets
 Generator Capacity of 800 KW Standby, 60 HZ, 480 V, 1800RPM
